
Vertical · 37.77° N, 0.00° E

Vertical · 37.77° N, 0.00° E. Local apparent solar time. UTC; design date 2026-06-21. Radius 80 mm. Mount vertically, wall direct south, top of the design upward. The style projects out from the wall at 52.2°. Its base runs 180.0° clockwise from the upward plumb line as viewed from the front. Nodus 25.6 mm along the style from its foot.

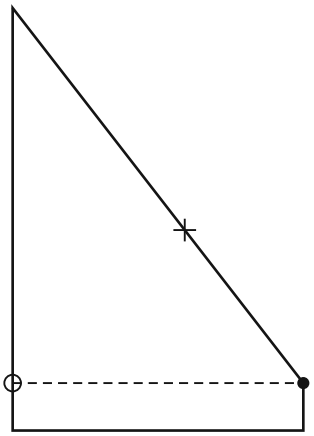
Gnomon - cut and fold

A4 | plate radius 80 mm | print at Actual size / 100%



Cut the solid outline. Fold the tab 90 degrees at the dashed base. The triangle stands perpendicular to the plate; its sloping edge rises 52.2251 degrees above it.

Mount the plate on flat backing. Match the filled foot dots and the open base-end circles; align the dashed base with the plate's dashed mounting line. Secure the tab to the backing; it may overhang a fan's point.

Base 38.44 mm; rise 49.60 mm; style edge 62.75 mm. Keep the triangle upright, not laid flat on the plate.

The cross marks the nodus, 25.60 mm along the style from the filled foot dot. Add a small bead or notch there to cast a distinct date-line shadow; an ink cross alone will not do this.

Use a thin shadow-casting edge. Material thickness, kerf and fold allowance are not compensated in these templates.

Mount vertically, wall direct south, top of the design upward. The style projects out from the wall at 52.2°. Its base runs 180.0° clockwise from the upward plumb line as viewed from the front.
