
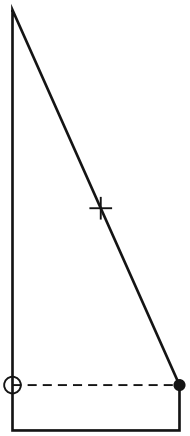
Horizontal · 66.00° S, 0.00° E

Horizontal · 66.00° S, 0.00° E. Local apparent solar time. UTC; design date 2026-06-21. Radius 80 mm. Lay flat with the top of the design toward true north. The style rises 66.0° above the plate toward the south celestial pole. Nodus 25.6 mm along the style from its foot.

100 mm calibration - verify before cutting

Gnomon - cut and fold

A4 | plate radius 80 mm | print at Actual size / 100%



Cut the solid outline. Fold the tab 90 degrees at the dashed base. The triangle stands perpendicular to the plate; its sloping edge rises 66.0000 degrees above it.

Mount the plate on flat backing. Match the filled foot dots and the open base-end circles; align the dashed base with the plate's dashed mounting line. Secure the tab to the backing; it may overhang a fan's point.

Base 22.08 mm; rise 49.60 mm; style edge 54.29 mm. Keep the triangle upright, not laid flat on the plate.

The cross marks the nodus, 25.60 mm along the style from the filled foot dot. Add a small bead or notch there to cast a distinct date-line shadow; an ink cross alone will not do this.

Use a thin shadow-casting edge. Material thickness, kerf and fold allowance are not compensated in these templates.

Lay flat with the top of the design toward true north. The style rises 66.0° above the plate toward the south celestial pole.
